Type of surface: Asphalt

Elevation (ft): 5709

Arrivals:

1. Upon arrival, aircraft must follow ATC's instructions to enter to General Aviation apron.
2. When passengers get off the aircraft, federal agents will get on board to perform an inspection of the luggage (There might be the possibility of having this done by the National Guard) They usually take trained dogs to detect food and/or any other substances.
3. This process takes around 10-20 minutes.
4. Once this is over, passengers will be able to exit through General Aviation.

Departures:

1. Boarding will be done through the General Aviation terminal.
2. Luggage will be taken to the X ray machine for a security inspection.
3. Luggage might also be checked by the National Guard or soldiers, before boarding on the apron.
4. This process takes around 10-20 minutes.
5. After the above process is done, aircraft will follow ATC's instructions to take off.
