Arrivals:

1. The aircraft will be parked at the General Aviation area, following ATC instructions to the assigned parking spot.
2. Our agent brings the necessary vehicles airside to transfer passengers and crew directly to the aircraft. From there, they are driven to the Commercial Terminal building, where immigration and customs formalities are completed.
3. Authorities perform the inspections; the time required depends on the number of people in the terminal. This usually takes approximately 20 to 25 minutes.
4. For passenger transportation, they can either be picked up at the Commercial Terminal or returned by vehicle to the General Aviation area, from where they can also exit.
5. Crew members are taken back to the aircraft with their belongings to finalize their processes onboard.
6. Once the crew has completed their procedures inside the aircraft, the vehicle picking them up is allowed airside, directly to the aircraft. They then exit the platform and the General Aviation building to reach the public parking area and continue with their ground transportation.
7. The entire process takes approximately 35 to 40 minutes, depending on the number of simultaneous flights and passengers being processed at customs and immigration.

Departures:

1. The crew's transportation vehicle is allowed airside to the aircraft (prior coordination).
2. Passengers arrive with coordinated access and are also driven airside directly to the aircraft, the security guards also will verify the driver's credentials at the platform access point, The airport's Follow-Me vehicle escorts transportation to the aircraft.
3. Once passengers are at the aircraft, immigration and customs must be called for inspection onboard. Customs and Immigration officers will check the passengers and crew inside the aircraft, Immigration and customs carry out the inspection once all passengers are present.
4. **Immigration may perform random inspections, while customs inspect 100% of the time.
5. Boarding can begin after clearance.

6. Once the flight is cleared, the flight plan is submitted, doors are closed, and the aircraft is ready for departure.
7. This process usually takes 20 to 25 minutes.
